

Control Panel App

Concept - Design - Manufacture

Perry are pleased to announce the launch of an app and remote desktop connection which allows connection to a Perry PLC control panel from any PC or IOS/Android mobile device.*

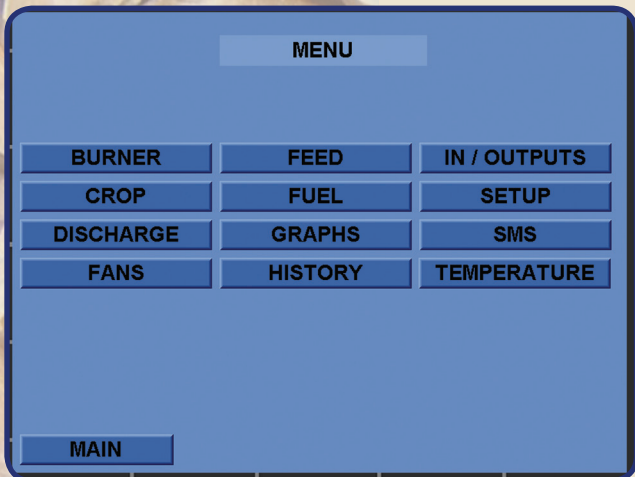

The app allows users more flexibility when operating driers.

Full control of your drier from anywhere with a WiFi or 3G/4G connection!

The free app is available from both the Apple App Store and Google Play Store.

- Control your Perry PLC drier or plant panel from your phone.
- Two settings allowing you to either view or control the panel.
- Screen shows an exact mimic of your panel.
- Full zoom compatibility making the buttons and screen easier to read.
- Static IP and passwords mean the connection is secure.
- Multiple applications can be installed on different devices.
- Multiple panels can be installed on each application.

*Panel must be connected to the internet with a static IP address and port forwarding facility, no app currently available for Windows devices.

Control Panel App

Concept-Design-Manufacture

The remote desktop allows more in-depth analysis of your control panel. Status reports and alarm history have never been so easy to access.

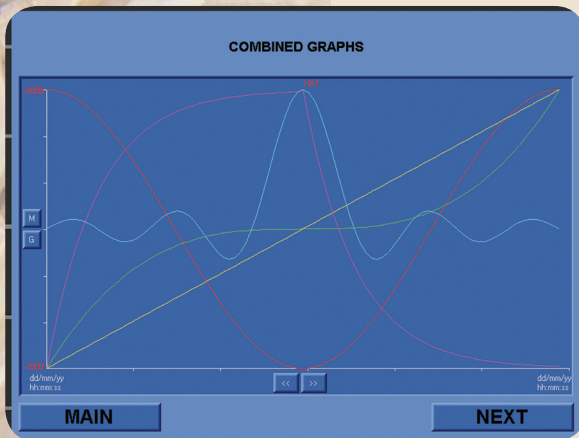

Sit at your computer while keeping a close eye on your grain drier!

- Use the connection in exactly the same way as the panel, the screen shows an exact mimic of your panel. Everything that can be done on the panel can be done in the remote connection.
- Same software Perry engineers use to offer remote support.
- Application can be installed on more than one device.
- Multiple panels can be connected to the application.

Your panel is connected to the internet, which allows you access to the following within your panel:

- Status reports in email and text form to be sent to selected numbers and email addresses.
- Can download all alarm history and recorded drier conditions.
- Remote connection by Perry engineers to diagnose any faults.
- Moisture contents can be entered during the day.
- Can export all recorded drier conditions and moisture contents to excel and automatically create daily record sheets.
- Fuel use calculator included for oil burning driers.
